### **Virtual Urgent Care**

- Available to every enrolled employee, spouse or domestic partner, and children up to the age of 26. Available 24/7/365.
- For minor health concerns, **don't wait in an emergency room or urgent care center** for diagnosis and treatment. MeMD's medical providers can evaluate common conditions that are typically treated at an urgent care facility, from the convenience of a home or office.
- MeMD's medical team includes MDs, DOs, NPs & PAs (US-licensed, board-certified medical providers) who average over 16 years of experience. They will give a **personalized treatment plan and send prescriptions right to the pharmacy**. (Please note, Prescriptions cannot be written for controlled substances or elective medications.)
