OPEN ACCESS NETWORK

DRIVING SAVINGS FOR MEC PLANS

MINIMUM ESSENTIAL COVERAGE SOLUTION

Open Access Network improving access & savings

Our Minimum Essential Coverage (MEC) solution is designed to combine with your health benefits plan to extend favorable reimbursement for MEC plans. Unlike traditional MEC plans, our MEC Solution enables members to choose high-quality medical providers and facilities to meet their precise health needs while balancing the financial cost for the member, the plan and the provider.

It's a win-win: members gain open choice to select higher-quality care for fair and reasonable costs, along with lower out-of-pocket costs; providers receive reimbursement based on fair, acceptable market recognized pricing and geography.

It improves member access to quality care, achieves 50-75% cost savings improvement, provides front-end proactive telephonic/ email support for member care questions, and works collaboratively with providers delivering care.

Unlike health plans that offer a specific defined network (e.g., a PPO), our MEC Solution allows members to seek care and treatment for covered services under the plan from any provider. While providers and facilities are not considered "in-network" or "out-of-network," they are granted fair and equitable reimbursements based on the market-sensitive pricing approach.

OUR ADVANTAGES

- Deep cost improvement for each MEC Plan and their members
- No defined network of providers; the open-access model allows members to seek care from any provider
- Proactive, front-end support to guide members to the best providers and high-quality care decisions. Member support can be obtained on-demand via phone or email

***MAC or Allowable Amount:**
MAC or Allowable Amount is used interchangeably to refer to the maximum charge allowed for all provider services. Please keep in mind that providers are not required to accept the Plan's Allowable Amount as payment in full and may balance bill you for the difference between the Plan's Allowable Amount and the provider's billed charges. You will be responsible for this balance bill amount, which may be considerable. You will also be responsible for charges for services, supplies, and procedures limited or excluded under the Plan, as well as any applicable deductibles, coinsurance, and/or co-payment amounts.

Pharmacy Plan includes:
Contraceptive drugs and devices obtainable from a pharmacy. Formulary generic FDA-approved women's contraceptives covered 100% in network. Not all drugs are covered.

What's Not Covered
This plan does not cover all health care expenses and includes exclusions and limitations. Members should refer to their plan documents to determine which health care services are covered and to what extent. The following is a partial list of services and supplies that are generally not covered. However, your plan documents may contain exceptions to this list based on state mandates or the plan design or rider(s) purchased by your employer.

All medical or hospital services not specifically covered in, or which are limited or excluded in the plan documents; Charges related to any eye surgery mainly to correct refractive errors; cosmetic surgery, including breast reduction; custodial care; dental care and x-rays; donor egg retrieval; experimental and investigational procedures; hearing aids; immunizations for travel or work; infertility services, including, but not limited to, artificial insemination and advanced reproductive technologies such as IVF, ZIFT, GIFT, ICSI and other related services, unless specifically listed as covered in your plan documents; nonmedically necessary services or supplies; orthotics; over-the-counter medications and supplies; reversal of sterilization; services for the treatment of sexual dysfunction or inadequacies, including therapy, supplies, or counseling; and special duty nursing. Weight control services including surgical procedures, medical treatments, weight control/loss programs, dietary regimens and supplements, appetite suppressants and other medications; food or food supplements, exercise programs, exercise or other equipment; and other services and supplies that are primarily intended to control weight or treat obesity, including morbid obesity, or for the purpose of weight reduction, regardless of the existence of comorbid conditions. This material is for informational purposes only and is neither an offer of coverage nor medical advice. It contains only a partial, general description of plan benefits or programs and does not constitute a contract.

This material does not provide health care services and, therefore, cannot guarantee results or outcomes. Consult the plan documents to determine governing contractual provisions, including procedures, exclusions and limitations relating to the plan. They may also be subject to precertification or step-therapy. Non-prescription drugs and drugs in the Limitations and Exclusions section of the plan documents (received after open enrollment) are not covered, and medical exceptions are not available for them.
